

PRO CD-R 24k FULL GOLD

700MB / 80MIN

PRO ARCHIVAL CD-R 24 k FULL GOLD 700MB / 80MIN

The main reason of disc failure in standard silver disc is the oxidation of silver layer. The gold reflective layer prevents the corrosion of the silver reflective layer, it ensures exceptional longevity! Thus Pro Archival CD-R 24K Full Gold remains the best option for long term storage.

Pro Archival CD-R has been submitted in accelerating strict and severe storage conditions to guarantee more than 300 years life shell.

Features

- Compatible to high recording speed, up to 48X
- Write-once format CD-R - it cannot be erased or overwritten
